Hi Mark,

Any assistance that you can provide would be greatly appreciated. For your convenience, I am attaching the petition, the response from OGC and some documents that EFED put together that I found on PRD's shared drive.

Thank you,

Matt

Michael Wagman is at SETAC this week but I will see if he can respond. I will take a look at it also. I definitely recall the question about studies cited in the petition but will need to dig around for a memo we would have crafted on that. I don't see it but have not looked extensively

mark

**Subject:** Clothianidin Petition One-Pager

Hi Mark,

As you now know, I am the new CRM in PRD handling the registration review for clothianidin. FEAD requested that PRD put together a one-pager for a petition submitted by the Center for Food Safety back in 2012 (see attached). I prepared the document and passed it by OGC for review, but would like EFED to give it a look over. The document is quite short (just over a page), but very important. Is there any way that you could have someone on your team review this document by the end of the week?

Respectfully yours,

Matt
